

Atty. Dkt. No. 7274

REMARKS

The foregoing amendments are made to insert the required SEQ ID NO identifiers associated with each listed sequence, as well as to correct an obvious scanning error. Namely, position 599 ('I') of the DNA sequences in claims 12 and 17 (SEQ ID NO: 11) have been corrected to disclose a "T". Support for correction of said error may be found in the claim 12 of application serial number PCT/SE02/00512, of which the instant application is a 371 national stage filing, wherein the correct sequence is disclosed. Applicants note that the error is simply a scanning error and that one of skill in the art would recognize that 'I' is not a valid nucleotide.

Applicants believe that the present application is now in condition for allowance. Favorable reconsideration of the application as amended is respectfully requested.

The Examiner is invited to contact the undersigned by telephone if it is felt that a telephone interview would advance the prosecution of the present application.

Respectfully submitted,
